

Training Event

Defining and implementing responsible antibiotic use

1200-1400 hrs Sunday 10 April 2016

Hall D203, Elicium Tower, RAI Convention Centre Amsterdam, the Netherlands

A light working lunch will be provided

PROGRAMME

- 12:00 Welcome, overview of session and introduction to DRIVE-AB
Inge Gyssens
- 12:05 What is the definition of responsible use? Results of the DRIVE-AB project and implementation of the metrics
Inge Gyssens, Jeroen Schouten and Marlies Hulscher
- 12:30 Quantitative metrics and quality indicators to assess antibiotic use. Output of the DRIVE-AB project
Céline Pulcini, Benedikt Huttner and Vera Vlahovic-Palcevski
- 12:55 Overview of proposed online outputs (learning material) from today
Céline Pulcini
- 13:00 Faculty-led discussion: How do we achieve consistency in the implementation of quantitative metrics and quality indicators of responsible antibiotic use across Europe/the world?
- *What are the perceived barriers and opportunities for implementation in your country / region / hospital / clinic / practice?*
 - *Is the implementation of the quantitative metrics and quality indicators feasible in your country / region / hospital / clinic / practice?*
 - *Do you feel that the proposed metrics / indicators can change practice in your setting?*
 - *What resources do you need to support training, implementation and sustaining change?*
 - *Suggestions for additional resources or approaches to ensure success*
- 14:00 **CLOSE**
