

Short report on DRIVE-AB Train-the-Trainer Event

The DRIVE-AB Train the Trainer event was organized by partners of Work Package 1A in collaboration with BSAC on Sunday 10th of April, during ECCMID 2016 in Amsterdam.

The aim of the meeting was to inform senior members of the medical antibiotic stewardship community about the activities of DRIVE-AB Work Package 1A.

Delegates were selected based on their expertise, experience, position and ability to support development, implementation and delivery of training on responsible antibiotic use in their country.

WP1A partners presented the methodology and the results of the international consensus procedure on quality indicators and quantity metrics of antibiotic use for the inpatient as well as for the outpatient setting.

Furthermore, the methodology and the preliminary results of the systematic review on the definition of 'responsible use' were presented and discussed.

During one hour, delegates had the opportunity to provide feedback and make suggestions to the researchers. Input from delegates might be used for the WP1A manuscripts (concerning the indicators and metrics) as well as to guide methodological choices (when addressing the definition of responsible use).

Delegates were invited to disseminate the DRIVE-AB WP1A activities in their home institutions and countries.

The meeting was video recorded and will be broadcasted on the DRIVE-AB website.

Attached is the list of the 21 delegates that attended the event. Contributions of the delegates were highly appreciated.
